

A single leaf falls from a tree  
With vividly morphed beauty.  
The sun's rays pierce the flaring edges  
Designed by the artist's diamond etches.  
Melody-swaying limbs so delicate,  
Curved as composed in the painter's ballet.  
Delicate wisps of dew descend,  
Flowing pleasantly around each bend.  
Shifting motion beams and flutters,  
With every drop of compulsion smothered.  
Emanating foreshadowed elations,  
Soon to be sweet celebrations.  
Piercing glances sweep the glade;  
Rays of sunshine ring like a warrior's blade.  
Elegant pirouettes in execution's line  
File edges of its methodical tumble in time.  
Bleached bark blazing by;  
So far now from the falling sky.  
Seeking glory until the final test,  
For only to blend in, with all the rest.  
An open wake of sea shines with rain,  
Across the brisk and sparkling terrain.  
Reflections of dreams still pure in mind,

Cling vigorously to misted long-needled pine.  
Cloud archers fire sparrows across the sky  
In patterns resembling melodious flies.  
As petals extend themselves to the solar rays,  
There dawns the gracious face of a new day.  
One glares at the apprehension of the past;  
They prepare to reign over the next task.  
Leaking, seeping with glowing bliss,  
Reveling gems surround a tree's wrist.  
Sweet blossoms sail over emerald scallops;  
Olive shrubs reside beneath the hammocks.  
Energy writhes through insects it envelops;  
Elepaios dash necessities for aerodynamics.  
Free-flying through waterfalls' stray spray;  
Tangled by the twisted fairytale's clay.  
Twinkling shimmers reflect images in ripples;  
Cloud figures pose secrets in pictorial riddles.  
Wandering in a white maze thus conjured,  
The art of pretending and events to ponder.
